

## EDAMA Sponsorship Packages

## Why Sponsor?

EDAMA hosts the only power breakfast networking events of the sector, bringing together most important key players to discuss topics-of-the-hour and most recent updates. The Association facilitates access to a network of key figures and organizations in Jordan and around the world; it promotes significant discussions with top experts of the sector. Previous power breakfast events have tackled such issues as financing energy, technical solutions, urban planning and many others.

Through sponsoring your organisation will be able to support EDAMA's work in enhancing Jordan's Green economy. Furthermore, your organisation will get access to policy makers and key figures in the sector.
